Ministry for Primary Industries
Manatū Ahu Matua

Maintenance Compound: Hygiene Technologies Limited, MC0000118

I refer to your renewal application dated 15 September 2026.

Your application has been renewed under Regulation 247 of the Animal Products Regulations 2021 and Regulation 18 of the Animal Products (Regulated Control Scheme – Limited Processing Fishing Vessels) Regulations 2001, and satisfies the requirements of Regulations 12, 13, 14, 53 of the Animal Products Regulations 2021. This approval has been effective since 29 October 2021.

This approval expires on 17 September 2031. Renewal before the end of this period is your responsibility. MPI will aim to send you a reminder email to renew your registration. Please ensure you notify MPI if your email and/or postal address changes. If you do not renew your approval, continued operation may be in breach of the Animal Products Act 1999.

Approval MPI ID number
Your unique approval MPI ID number is MC0000118.

Please always use the MPI ID number above in all your communications with MPI about this approval.

Scope and Condition(s)

Scope	
Product Name	Actex
Product Material	Non-dairy maintenance compound
Intended Use	Non-dairy processing

Approval is subject to the following conditions.

Conditions	
C 42 Sanitiser	1. This can be used for sanitising of large processing rooms provided all food or edible product and food contact packaging material is removed from the room before use, unless the room can be divided into distinct areas. No food or edible product or food contact packaging material can be present in the area during use. There must be no possibility of contamination of product or packaging material as a result of use. 2. When used on clean hard surfaces, a rinse with suitable water is not required. 3. Food contact surfaces must be thoroughly drained to minimise residues before production starts. 4. On non-food contact surfaces, such as floors, walls and ceilings, higher concentrations may be required to control microbial growth. This is allowed, provided there is no risk of product contamination. 5. Where these conditions cannot be met, a suitable water rinse is required. 6. This must always be used at the dilutions recommended by the manufacturer.

Public Register
The approval can be viewed on the MPI public register: https://www.mpi.govt.nz/food-business/food-safety-registers-lists/register-of-approved-maintenance-compounds.

The register is also open for public inspection at the Ministry for Primary Industries head office, or you can write to MPI Approvals to request a copy.

You must notify MPI in writing of any change to your approval.

Sign up for MPI updates: MPI provides an e-mail notification service for any website updates to standards, legislation, and export requirements. MPI recommends you and your relevant staff subscribe to receive these notifications. To sign up to receive notifications go to https://www.mpi.govt.nz/news-and-resources/subscribe-to-mpi/ and select topics of interest.
